## Capability Statement

AAHA is a women-owned, SBA 8(a) and DBE-certified cultural resources management service provider focused on efficient, timely, and professional execution of cultural resources services. For over 25 years, AAHA has helped our clients navigate local, state, and federal compliance challenges associated with cultural resources, including federal compliance with Section 106 of the National Historic Preservation Act (NHPA) and the National Environmental Policy Act (NEPA). The AAHA advantage resides in our commitment to Efficiency, Professionalism, and Responsiveness in the completion of all your cultural and heritage resource management project needs. Our core competencies include an industry-leading safety program with project-specific Health and Safety Plans (HASPs), efficient incident reporting, and a real-time Total Recordable Incident Rate (TRIR) monitoring system. The AAHA team has produced consistent results since 1998 and will deliver your cultural resources projects on time, on budget, and on focus.

## CAPABILITIES

AAHA provides Cultural and Heritage Resource Management Services in projects driven by compliance with Federal requirements in Section 106 of the NHPA and NEPA and state or local ordinances. Our service platform includes:

- ✓ Environmental Assessments and Environmental Impact Statements
- ✓ Phase IA Cultural Resources Assessments
- ✓ Phase I Cultural Resources Surveys
- ✓ Phase II Archaeological Evaluations
- ✓ Phase III Archaeological Data Recoveries
- ✓ Archaeological Monitoring
- ✓ Research Services
- ✓ Cemetery Studies
- ✓ Historic Architecture Services

## Facilities and Equipment

AAHA's main office is in Crofton, Maryland, where it maintains its headquarters and archaeological laboratory. AAHA owns and maintains the necessary equipment for multiple concurrent projects for any scale of archaeological investigations. We also own and maintain sub-meter accuracy hand-held GPS devices for field data recordation. Finally, AAHA uses a firewalled Synology data storage and sharing system capable of real-time shared multiple user access from internal or remote platforms.

## Expertise

AAHA is staffed with expert consultants that ensures timely and cost-effective completion of every project. Our staff features subject matter experts in archaeology, historic architecture, historic preservation and planning, environmental assessments (EAs), Environmental Impact Statements (EISs), historic property and deed research, project scoping and management, and archaeological laboratory procedures and analysis. In addition to our core in-house staff, AAHA has developed an extensive network of other industry specialists in geophysical survey and analysis, paleobotany, zooarchaeology, dendrochronology, and historic structural evaluation and restoration.

## Customers

AAHA provides efficient, professional, and responsive services to every sector of the development, private, and public community. Our client portfolio, includes residential and commercial developers, engineering firms, public utility providers, local and federal government agencies, and private interests.
